PROFILE

Computer Science undergraduate specializing in **Full-Stack Development** and **LLM-based AI systems**. Experienced in building AI agents, real-time applications **and** scalable web platforms using **LangChain**, **React, Node.js,** and **MongoDB.**
Strong focus on production-ready systems, clean architecture, and applied AI.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C++
Frontend: HTML, CSS, JS, React, Tailwind CSS
Backend: Express.js, REST APIs, JWT, Socket.IO, Security
Databases: MongoDB, MySQL, Redis, Vector Databases
AI: LangChain, Google Gemini API, OpenAI API, Pydantic AI
Engineering Practices: Debugging, Testing, Documentation, Deployment, System Design

EXPERIENCES

AI Agent Architect- *IBM* July 2025 – August 2025

- Designed and implemented modular AI agent pipelines using LangChain with Gemini, Groq, and OpenAI APIs
- Built tool-augmented agents enabling multi-step reasoning and dynamic API calling
- Improved agent task completion accuracy and tool usage efficiency by ~40%
- Worked with RAG pipelines, vector search, and prompt optimization for real-world use cases

PROJECTS

1. CineMind-AI – LLM-Powered Movie Recommendation System *GitHub* | *Live*

- Built an AI-driven recommendation system using semantic search and vector embeddings
- Implemented RAG pipelines for contextual movie suggestions based on user intent
- Tech: LangChain, Python, Vector Databases, LLM APIs

2. CIAO – Chat App *GitHub* | *Live*

- Developed a real-time chat application with JWT-based authentication
- Implemented low-latency messaging using WebSockets (Socket.IO)
- Designed REST APIs and managed real-time data using MongoDB
- Tech: React, Node.js, Express, MongoDB, Socket.IO

3. MindSpark AI – AI-Based Quiz & Flashcard Generator *GitHub* | *Live*

- Built an AI-powered learning platform that converts raw user input into structured quizzes and flashcards using predictive AI models
- Developed a responsive Streamlit UI optimized for mobile users, supporting scalable access for 500+ active users
- Improved usability and content accuracy through iterative prompt tuning and UI refinement
- **Tech:** Streamlit, Python, AI Models, JavaScript

CERTIFICATES

1. AI Agent Architect - IBM *Credential URL*

LLM, RAG, Agents, RealWorld Projects

EDUCATION

Odisha University of Technology and Research, 08/2023 – Present

Computer Science and Engineering

CGPA - 9.16

Tokyo Advance Higher Secondary School, *12th* 06/2020 – 06/2022

Percentage - 92.33
